

A man's
best pal
is his smoke

"Let's do the darn job together"
—Ches. Field

WHY is it that more and more smokers (millions now) are getting together with Chesterfields?

First of all, fine tobaccos. Our own buyers in the Orient send us the pick of the finest Turkish varieties (Xanthi, Cavalla, Smyrna and Samsoun). We blend these by a secret method with specially choice Domestic leaf.

This method brings out new qualities of flavor—a smoothness, a richness, a mellowness that go right to the spot. That's the reason Chesterfields satisfy.

And remember—"Satisfy" is Chesterfield's secret, based on our own private formula, which cannot be copied.

Every package has a moisture-proof wrapping—another reason for Chesterfield's unchanging quality of flavor.

Ill and Nervous.

Nurses dislike the season of thunderstorms. "We are not afraid of lightning ourselves," a nurse in a woman's hospital told me, "but it has a harmful effect on the patients. Most sick people fear lightning. In cases of extreme weakness or nervousness a dozen flashes of blinding lightning reduce the patient to a state of utter prostration."

The "White Feather."

The expression, "He showed the white feather," has its origin in reference to game cocks. Pure-bred game cocks have only red and black feathers, but crossbreeds have a white feather in the tail. The slightest impurity in strain is said to destroy the bird's pluck, hence the white feather is used to denote cowardice.

Loyalty Well Rewarded.

A Parisian with a sense of humor bequeathed 300 francs to each relative who abstained from attending his funeral. One poor relative insisted on following the deceased to the grave; and her loyalty was rewarded, for by a codicil to his will the deceased left the residue of his large fortune to those relatives who were prepared to sacrifice the 300 francs.

HAMILTON VALLEY, KY.

The Valley is situated 15 miles South of Lancaster in Garrard county, Ky., right where the "Blue Grass Belt" kisses the foot-hills of the Cumberland mountains. So a man can live in both places.

Land Sales are as much in evidence as elsewhere and keeps going higher and higher. Farms that sold for from \$1 to \$10 per acre 15 years ago, are now selling from \$30 to \$150 per acre.

They are also drilling for oil 1 mile east of the Valley and have struck the sand and report that oil is in sight. People are prospering as they never have heretofore.

Tobacco is colony and fine fiber and Tobacco Barns are growing with the "obnoxious weed of Virginia". Mr. Sherman Robinson reports that he already has 3500 pounds, of a 4,000 pound crop stripped and he proposes to have the first load on the Brakes at the Tobacco Warehouse in Lancaster, Kentucky.

A good corn crop has been raised some farmer reporting as much as 12 barrels per acre. Last summer's Drouth did not affect this section like it did the farmers North of here.

Plenty of wild fruit, some apples and peaches and now chestnuts, Hazel and Hickory nuts, walnuts are in evidence. So are pawpaws, Pump-

kins, persimmons and opossums. The natives bid fare to live as long as Old John Shell of Leslie County Ky.

Your scribe writes from a home this Sunday evening where there are four generations assembled and all younger than he is. The great-grandmother calls him that "old man."

People are comparatively happy and contented for they don't worry. We seldom get a paper just often

enough to want another. We sent out to the Post Office for our mail by a native who forgot to enquire. So we asked him how President Wilson was. He said he never heard any body say and that he did not know that he had been sick.
